

Mentor Program

The WLUA Mentor Program is open to all officials, of any skill level. Mentors will be chosen by WLUA based on rating, experience and willingness to share their time, and efforts to make fellow members better lacrosse officials. Mentees only need to sign up.

If an official signs up for the program, as a mentee, they will automatically be accepted. The program will attempt to match the mentee with a mentor who suits their needs based on the mentee's location, skill level and individual needs.

A mentor can be a valuable resource. All our mentors have many years of lacrosse officiating under their belts. They can provide answers to rules questions, questions regarding field mechanics, field positioning and signals. There are also many other concepts that can be explored during your interactions. If you had a particular issue on the field that day, your mentor could be a person to go to for advice and guidance.

Consider signing up to be a mentor or mentee. It is an invaluable experience. The only prerequisite for this program is a willingness to give up some of your TIME. A valuable commodity in our busy lives. However, you will find the benefits priceless.
